Note that these sample timelines are only intended as examples to assist you in understanding what is doable within each package option. This is not intended to say what is required within each package. Every wedding day is different and timing depends largely on travel time between locations, the number of guests and family members, and the general flow of the day.

Part of my service as your photographer is to assist you with timeline planning and helping guide you with regard to what is attainable within the package you choose. Please contact me if you have any questions about timing within each of these package options!
